**New HomeStyle<sup>™</sup> Patty System Brings Opportunity to the Table**

Formax<sup>®</sup>'s new HomeStyle<sup>™</sup> Patty System creates homemade looking beef, pork and turkey patties at high production rates. The system consists of any new or existing Formax<sup>®</sup> forming system feeding a HomeStyle<sup>™</sup> Patty Conveyor. That's great news for processors of all sizes because the fluffy, fresh-formed look of the patties comes without significant capital expenditures and dedicated production lines.

The HomeStyle<sup>™</sup> Patty System enables processors to produce a uniquely different patty with broken edges and excellent product appearance. Patty size, weight, shape, thickness and texture are the processor's choice, and Formax<sup>®</sup>'s automated Paper Feed System makes the entire operation cleaner and more sanitary than competitive systems. Add Tender-Form<sup>®</sup> for superior cooking characteristics and texture and the HomeStyle<sup>™</sup> Patty System fully maximizes the potential to drive sales of case-ready, pre-cooked, frozen and fresh gourmet patty products.

Formax<sup>®</sup>'s design guarantees superior portion control, higher productivity and speed. Patty weights are maintained within +/- .5% of the target weight. The HomeStyle<sup>™</sup> Patty System produces 600 portions per minute when teamed with a Maxum700<sup>®</sup>.

What if you could make sizzling HomeStyle<sup>™</sup> patties to any specification on your Maxum700<sup>®</sup>, Ultra26<sup>™</sup>, F-26<sup>™</sup>, F-19<sup>™</sup>, F-400<sup>™</sup> or F-6<sup>™</sup>? What if you made them with superior speed and portion control, using your existing Paper Feed System? And what if you used Tender-Form<sup>®</sup>?

For more information, call, write or visit Formax<sup>®</sup> Inc., 9150 191st Street, Mokena, Illinois 60448 (near Chicago.) Phone: 708-479-3500. Fax: 708-479-3598.
